Welcome to Our Fall 2016 Catalog

As an educator, you have the privilege of making a positive difference in the lives of children every day. Here at Remedia Publications, our goal is to be an important part of that privilege by providing quality, research-based learning materials to help you every step of the way.

Whether your students have special needs, are struggling readers, or are performing above grade level, our versatile materials will keep students interested in learning while meeting state and national standards.

We hope you have a wonderful 2016-2017 school year!

Sincerely,

The Remedia Family

Academic Book Sale
28 Intriguing Capers Paired with Informational Texts

Explanation of Grade Levels
To make it easier for you to find appropriate materials for your students, we identify our products by four different grade classifications:

GRADE LEVEL: This is the traditional grade level for which the product is appropriate.

INTEREST LEVEL: This is the grade level at which students will find the material interesting and relevant.

READING LEVEL: This is the grade level at which a student is expected to be able to read the material.

CCSS LEVEL: This indicates the Common Core grade level the product meets. These resources will support your implementation of CCSS. You can download the CCSS ELA or Math correlations online at Remedia.com/standards.

700+ Digital Titles
Get instant access to our most popular books in digital format! You can display our eBooks on your whiteboard or print the activities as you need them. Look for this icon throughout the catalog and find more at Remedia.com/ebooks.

180 DAYS OF WRITING
Develop Enthusiastic & Efficient Writers Through Daily Practice

This easy-to-use resource provides daily practice activities for students to build writing and grammar skills. Students interact with mentor texts and then apply their learning by writing opinion/argument, informative/explanatory, and narrative pieces. This 216-page classroom resource features 18 theme-based, two-week units—each aligned to one writing standard. Each book includes the framework for students to practice the steps of the writing process: prewriting, drafting, revising, editing, and publishing. This versatile daily practice is easy to prepare and implement with genre-specific rubrics that provide authentic assessment to help differentiate instruction.

Practical Practice Math Binder
Real-Life Math Problems to Reinforce Basic Skills

Watch math skills improve as students work through math word problems that involve everyday activities such as comparison shopping, using coupons, buying in quantity, learning about budgets, withholding tax, and so much more. A real practical application of math! This 180-page binder is packed with real-life word problems that are organized by categories such as Career Math, Math at Home, Best Buys, and more. The included whiteboard-ready Resource CD has the entire contents of the binder in PDF format, a complete list of skills and Common Core State Standards, that this program meets, plus over 20 bonus activities, reference pages, Blank checks, deposit slips, and more.

RESEARCHING COMPREHENSION & CRITICAL THINKING SKILLS
Boost Reading AID Thinking Skills All at Once!

Comprehension skills will soar when you use the challenging and creative exercises featured in this 17-book series. You’ll have over 450 reproducible, ready-to-go activities designed to make students smile as they practice key reading essentials including identifying the main idea, reading for details, finding facts, sequencing, making inferences, drawing conclusions, understanding analogies, evaluating information, and much more. At the same time, they’ll be practicing valuable logic and thinking skills such as analyzing, synthesizing, evaluating, and more. You can use this multi-valued series in your classroom, at home, in the library, or for homework, and it’s great for test preparation and remediation.

Pros: Great for individualized instruction. Reproducible activities make for easy implementation. The series is well-organized and easy to use.

Cons: The price point is a bit high for some teachers.

SUMMARY
• Great for individualized instruction.
• Reproducible activities make for easy implementation.
• The series is well-organized and easy to use.

SYNTHESIS

The specific SKILL BUILDERS activities were designed to give students targeted practice with these key comprehension skills: main idea, context facts, sequence, conclusions, and fact & opinion. By focusing on one comprehension skill at a time, struggling readers will have an opportunity to master that skill and improve overall reading and comprehension skills. Each of the six skills in the binders is organized by tab dividers. With a variety of leveled stories, you can customize your reading lessons to fit the specific skill practice needed for each student. Great for on-one-on intervention, small groups of students on multiple skill levels, or whole-class participation.

Pros: Tailored to individual student needs.

Cons: The price point is high for individual use.

SUMMARY
• Tailored to individual student needs.
• Great for on-one-on intervention.

FACTOR & OPINION

Each Binder Features:
• 60 short stories (160-160 words)
• Fiction & Nonfiction Topics
• Engaging Illustrations
• Follow-Up, Skill-Specific Activities
• Quizzes

STANDARDS-BASED ACTIVITIES

Each high-interest book features intriguing stories followed by activities labeled according to the specific skill targeted. There’s even a quick reference chart that links specific reading skills to their accompanying stories.

We’ve done the work for you! With this series you won’t have to waste time searching through stories and activities to find one that targets the skills you need to include in your lesson plan. Each high-interest book features intriguing stories followed by activities labeled according to the specific skill targeted. There’s even a quick reference chart that links specific reading skills to their accompanying stories.

DIFFERENTIATED NONFICTION READING
Nonfiction Passages Written at 3 Different Reading Levels

Teach the same grade-level content to students with varying reading skills. Differentiated Nonfiction Reading feature story passages written at three different levels: below grade level, at grade level, and above grade level. All the stories in your class can read the passage and have the information they need to respond to the same six questions that evaluate their comprehension of the subject matter. The curriculum topics for science, geography, history, and language arts are correlated to the McREL standards and benchmarks. Each nonfiction story is tested against Bloom’s Taxonomy, sentence writing practice, and a research writing activity. Tab dividers organize each topic into useful categories: Animals, Inventions, People, and Places & Events. Each binder also includes a skills chart, answer key, and Resource CD. 208 pages each.

### Science-Based Reading Binder

Improve Comprehension with 45 Nonfiction Topics

Your students will discover and learn about 45 science-themed topics—Natural Disasters, Solar System, And...—as they read the high-interest stories. Each story is followed by skill-based questions and a close reading assessment to check comprehension. Each story features a realistic picture and a unique category to aid students’ understanding of the topic. This binder also includes an extensive vocabulary list and activities designed to help learners understand and use some of the more difficult words from the stories. Bonus activities that relate to the story topics are also included to help build comprehension. Over 188 reproducible pages.

**REM 2021**... (1 Binder & 1 Resource CD)... $59.99

### History-Based Reading Binder

38 Key Events in U.S. History

Expand students’ knowledge of U.S. history while building comprehension skills and meeting the Common Core State Standards! These outstanding units present an endless array of topics such as the Civil War, Paul Revere, Women’s Rights, WW2, Civil Rights, and more. Each unit includes a short story (less than 300 words) and three activities. The first activity includes questions that direct students to specific paragraphs in the text to locate answers. The second is a close reading activity that will give students another opportunity to read through the story while building vocabulary skills. The third activity includes skill-specific questions that are aligned to the CCSS. Each question is clearly labeled so you know which standard is being met.

**REM 2032**... (1 Binder, 1 Audio CD, & 1 Resource CD)... $89.99

### Celebrity Readers

Well-Known Stars: High-Interest/ Low Readability Format

Watch reluctant readers become eager readers with this star-studded series! Each high-interest/low vocabulary book contains 14 mini-biographies of today’s hottest stars along with a variety of activities to test comprehension. With 84 easy-to-read biographies to choose from, this 6-book series is sure to give your students an unending supply of motivating reading activities and comprehension skills practice. 32 pages each.

COMPREHENSION QUICKIES BINDER
80 Short Stories for Short Attention Spans

TERRIFIC for students who have trouble reading longer paragraphs, these super-short nonfiction stories (85–100 words) are the answer! Featuring a controlled vocabulary, simple sentence structure, double-spaced text, and a larger font to read fast, these leveled stories are sure to improve fluency and comprehension. To help you differentiate your lesson, each tab divider features a different shade to represent each level. This useful distinction will help you discreetly meet the needs of your students at different reading levels. Whether reading about crickets, space, or skateboards, these high-interest nonfiction topics are sure to motivate. The whiteboard-ready resource CD includes the entire contents of this 174-page binder, as well as reading levels, and a list of the Common Core State Standards this program meets.

Binder Includes:
• 80 nonfiction stories
• 80 close reading activities
• Over 200 comprehension questions
• 5 tab dividers that distinguish each reading level
• Whiteboard-ready resource CD

ON THIS DATE • THE HISTORY STORIES & ACTIVITIES
Each day of the school year, students read the appropriate on-this-date-in-history nonfiction story…but if they’re having difficulty reading it…this interactive program can read it to them! Students follow along on-screen, word for word, while the highlighted text is narrated. These visual and auditory aids help level the playing field for struggling readers while significantly improving fluency, vocabulary, and comprehension! Follow-up activities include on-screen crossword puzzles, word games, and multiple-choice quizzes to assess comprehension—while keeping interest high.

Easy Assessment & Management Tool
At the click of a button, you can track student progress or see which stories have been assigned and read. Quizzes are automatically graded for easy assessment, then stored for later review! Versatile features allow you to assign the 274 stories by their date in history, or by matching student interest to a relevant text. Create custom reading lists based on popular themes like sports, animals, and more!

Extend learning and keep students working towards Adequate Yearly Progress with these more challenging activities. Each 188-page book includes 270 specific reading skill questions focusing on: Main Idea, Inference, Conclusions, Finding Facts, Locating the Answer, Sequence, Comparison, Vocabulary, and more. Stories feature a more traditional font size in a single-column format to help transition students into an “on-grade-level” reading style.

LEVELED TEXTS FOR CLASSIC FICTION
The Same Passage Is Presented in 4 Different Reading Levels

INTRODUCTION
These books are a great way to teach fiction using leveled texts to provide access for all learners in grades 3–12! You’ll learn how to differentiate instruction with these books featuring excerpts from classic works of fiction. Each title includes all 15 different passages written at four different reading levels and matching visuals. Symbols placed in the lower corner of each page represent the reading level and are designed to help teachers differentiate instruction. Comprehension questions are also provided to complement each leveled passage. A Digital Resource CD is included with a modifiable version of each passage in text format and full-color versions of the texts and image files. List of titles available online at www.remediacorp.com/leveled-texts-for-fiction-classic-set

CRITICAL THINKING & CLASSIC TALES
Imaginative Stories Great for Character Education!

This wonderful collection of 24 stories and tales (12 in each book) features activities sure to develop critical thinking skills and promote maximum comprehension. Illustrated stories are followed by a crossword puzzle plus questions based on Bloom’s Taxonomy and labeled according to a targeted skill-level thinking. The many morals and lessons throughout offer opportunities to work on character building. Each 48-page book is accompanied by a high-quality audio CD to help your reluctant readers participate and achieve success. Audio CD follows text word-for-word to aid fluency and comprehension. Graphic organizers and a standards-based assessment guide are also included.

Each Set Includes:
- 70-Page Graphic Novel
- Read-Along CD
- Study Guide

EASY READING SHAKESPEARE
High-Interest/Low-Readability Adaptations

INTRODUCTION
Introduce your students to the most popular literary accomplishments of William Shakespeare. Easy-to-read adaptations will capture the interest of both reluctant and enthusiastic readers. Each title is arranged in 10 short chapters with key words defined and used in context. The integrity of the original plays have been retained but essentially converted into story format. Each chapter is followed by multiple-choice questions that require students to recall specific details, sequence events, draw inferences, develop new story names, and choose the main idea. Each title includes five 72-page books (each sold separately online).

**Perceptual & Spatial Concepts**
Put students on the Path to Math Success with these Readiness Activities

**Grade Level 1-2**
- **Patterns**
  - Activities include completing sequences, connecting the dots, and drawing. Students view shapes, pegs, and geometric designs to determine position, compare shapes, and find patterns.
  - REM 139...  $7.99

**Grade Level 1-3**
- **Shapes**
  - A complete introduction to basic two- and three-dimensional shapes. Students identify, describe, create, and write the names of ten different shapes.
  - REM 142...  $7.99

**Grade Level 1-3**
- **Position in Space**
  - Help students master the concepts of location and direction. Plenty of practice sheets and fun illustrations ensure an understanding of above, below, beside, left, right, middle, last, etc.
  - REM 143...  $7.99

**Grade Level 1-3**
- **Perceptual Activities**
  - Promote reading and writing success through the use of maps, grids, figure-ground activities, picture to complete, and single-line drawings to copy.
  - REM 153...  $7.99

**Number Line Math**
A Visual Approach to Learning Math!

**Grade Level 1-3**
- **Number Line Addition & Subtraction**
  - Great practice for students who are making the transition from concrete math using manipulatives and pictures to pencil-and-paper problems. The “manipulative” is built into every activity page in the form of a number line. Plenty of problems on each page ensure more mastery-building practice per page! Features basic addition and subtraction practice with number lines from 1-10, 1-14, and 1-20. 28 pages.
  - REM 537B..  $4.99

**Easy Addition & Subtraction**
Ideal for Students with Low Frustration Levels!

**Grade Level 1-3**
- **Easy Timed Math Drills**
  - Improve the speed and accuracy of beginning learners with this simplified version of our best-selling Timed Math Drills! Easy-to-read practice drills with fewer equations per page cover facts 0-9 and feature 36 single-digit equations per drill. Features horizontal and vertical versions of the equations and includes a reproducable award certificate and progress chart.

Math for Real Life
Word Problem Series

Today’s standardized tests require students to solve multiple-step problems and provide
written explanations. Prepare them with these practice books, great for learning to solve
multiple-step computations and word problems. After completing each activity, students write
explanations about the steps they followed to find each solution. Include flow charts, graphic
organizers, and unit and overall assessments. Bond-in answer key. 64 pages each.

Practice Makes Perfect...

...and each of these sequential books is loaded with solid practice! Books start off with basic concepts and progressively get more difficult. Each includes both computation and word problems along with an award certificate, progress chart, answer key, and tons of practice!

PLACE VALUE ACTIVITIES SET
One's Place to Millions Place!

Help students begin by recognizing groupings of ones and tens, then gradually progress to recognizing hundreds in Primary Place Value. By the end of the book, students will be able to name the place value of each digit in numbers up to three digits and write three-digit numbers correctly. 48 pages.

Place Value Activities includes over 45 pages of activities and offers a variety of formats to ensure a strong grasp of place value concepts. Matching, drawing, number search, place puzzles, riddles, skill challenges, and more provide reinforcement while keeping interest high. Students begin by reviewing the ones place and continue up to the millions place. 48 pages.

PACEMAKER PRE-ALGEBRA
Build a Bridge from Basic Math to Algebra for All Students

Designed as a foundation for algebra, this comprehensive program motivates students as they build important skills and confidence they need to take on algebra. Correlated to NCTM standards, Pro-Algebra features predictable and manageable 2-page lessons that promote student success. Written at a controlled reading level, students of all abilities are provided with essential preparation for a variety of testing situations. Program also focuses on the essentials of problem solving with the Polya 4-step approach which provides step-by-step guidance for building successful problem-solving skills. Component details available online.

PERCENTAGE EQUALITY PUZZLES
20 Self-Checking Puzzles

Help students understand the relationship between decimals, fractions, percents, and graphs. Each puzzle offers a different format. Blue sides range 75% down to 12.5% while black sides range 100% down to 10%. Use this hands-on series in a different format. Blue sides range 75% down to 12.5%. 48 pages each.

EASY FRACTIONS
A Visual Way to Learn Fractions!

This handy calculator voices numeric entries and computations in easy-to-understand speech. Choose between the complete number speech option, “seventy-eight,” or the digit-by-digit option, “seven, eight.” Features volume control, mute option, and angled display. Designed for desktop use. Measures 6” x 4” x 7/8”. Two “AA” batteries included.

PERCENTS
Build Problem-Solving & Critical Skills

With these practice-packed books, students work the problems and develop the skills necessary for success in Drill & Practice: Percents! Students learn to change fractions and decimals to percents with the help of easy-to-follow instructions. With Practical Application: Percents, students take their knowledge of percents to a whole new level by applying it to real-life situations. 48 pages each.

EASY FRACTIONS
A Visual Way to Learn Fractions!

A wonderful introduction to fractions! Students will have plenty of practice identifying, drawing, coloring, and dividing basic shapes. Fractions include 1/2, 1/3, 1/4, and more! 28 pages.

HANDS ON MATH
Reproducible Activities & Teacher’s Notes

These lively and engaging math labs are specially designed to reach out to the different style learners in your classroom. This activity-based approach to math helps motivate students. Reproducible activities are preceded by detailed teacher notes. This hands-on series is good for special needs students. 96 pages.

GRAPHING
Step-by-Step Activities for Interpreting Grids, Graphs, Tables, & More!

Level 1-3 features 48 pages of hands-on activities involving line graphs, tables, and bar graphs to teach students to retrieve and communicate information. Level 4-8 includes more than 40 exercises to interpret and create various visual presentation of information. Forms are included for teacher-designed and student-initiated projects. 52 pages.

KIDS RULERS
4-Sided, Color-Coded Rulers Teach Tacky Measurement Concepts

Simplify instruction with our study, kid-friendly KidsRulers! Created by an elementary teacher, these 4-sided rulers make it easier to visualize and learn measurements. With large, bright numbers and bright colors, the Primary KidsRuler shows beginning students inches, halves, quarters, and in quarters in a new way. The supplemental Activity CD includes a Teacher’s Guide and activity pages. Grades K-2. 48 pages.
CLOCKS LEARNING KIT  Interactive Activities to Reinforce Time-Telling

- Remedia Publications
- Grade level 1
- Interest level 1

CLOCKS Clocks Activity Books: Two 32-page books offer loads of practice telling time on analog and digital clocks, using key vocabulary, relating activities to specific times of the day, and understanding the differences between seconds, minutes, hours, and more.

- Clocks Dominoes: 45 color-coded dominoes feature three levels of play that reinforce clock skills! With our reproducible activity books, dominoes, and flash cards, students of different ability levels can excel at telling time. Each assessment features a variety of activities and two levels of learning.

EDMARK TIME TELLING PROGRAM  Step-by-Step Curriculum

- EDMARK
- Grade level 1-3
- Interest level 1

This tried and true program teaches students to read standard and digital clocks plus write down time. Basic time telling is broken down into 95 discrete skills. Each skill is taught step by step using a self-correcting method developed through years of research. The 95 reproducible skill pages are divided into 9 progressively challenging lessons. Lesson 1 begins with number recognition while Lesson 5 requires the student to “read” clocks to the minute. Includes 105 pages printed on cardstock, lesson files, and 10 self-correction envelopes. Great for individual or group instruction! Includes a PC/Mac CD with printable PDF pages.

MONEY STATION  Everything You Need to Teach Money

- Remedia Publications
- Grade level 1
- Interest level 1

Money Station blends hands-on activities, worksheets, and standards-based instruction to form a comprehensive money program. Includes a 126-page curriculum guide, coin and bill counters, realistic money, and plastic coin cubes. The guide establishes 8 skill sets organized by difficulty, each with a sequence of objectives... An assessment helps you zero in on skill deficits and assigns appropriate activities. The workbooks reflect real-world situations and use realistic illustrations, making them appropriate for all grades. Curriculum pages are reproducible plus a disc with PDFs is given to print worksheets and assessment forms from your computer. A CHOKING HAZARD. Not for children under 3 yrs.

COIN-U-LATOR  Electronic Coin-Counting Calculator & 200 Practice Activities

- Remedia Publications
- Grade level 1+
- Interest level 1+

This handheld, coin-counting “calculator” motivates students to learn basic money concepts. Instead of standard buttons, realistic coins and dollar bill buttons are used to teach counting money, the value of coins, and more! With a flip of a switch, the Coin-u-Lator changes from addition to subtraction mode. Features a large LCD screen, game mode, fun sounds, and energy-saving automatic shutdown. Batteries and instructions included.

COIN Puzzles

We have just the tools you need to get students on time and on top of their clock skills! With our reproducible activity books, dominoes, and flash cards, students of different ability levels can excel at telling time. Each assessment features a variety of activities and two levels of learning.

Clocks Activity Books: Two 32-page books offer loads of practice telling time on analog and digital clocks, using key vocabulary, relating activities to specific times of the day, and understanding the differences between seconds, minutes, hours, and more.

Clocks Dominoes: 45 color-coded dominoes feature three levels of play that reinforce clock skills! With our reproducible activity books, dominoes, and flash cards, students of different ability levels can excel at telling time. Each assessment features a variety of activities and two levels of learning.

Beginning Math: Time

- Remedia Publications
- Grade level 1-3
- Interest level 1

Teach & Reinforce Real-World Applications for Math Skills

- Hot Dots® Flash Cards: Telling Time
- Remedia Publications
- Grade level 1
- Interest level 1

These self-correcting puzzles, students will get plenty of practice counting coins and bills. Each set features two levels of play on 24 reversible puzzles. Plus with no written words, these games are perfect for non-readers or ESL/ELL students.

COIN-U-LATOR Puzzles

With these self-correcting puzzles, students will get plenty of practice counting coins and bills. Each set features two levels of play on 24 reversible puzzles. Plus with no written words, these games are perfect for non-readers or ESL/ELL students.

Change Puzzle Feature coins, realistic in both color and size. One set is color-coded into two levels of difficulty—one for amounts up to 50 cents and other for amounts greater than 50 cents and up to a dollar. Dollar Puzzles provide pictorial examples of equivalent dollar combinations, emphasizing small on cash. Matching parts with equal money values fits together.

Financial Management Games

Learn Valuable Spending Tips While You Play

Sure to provide hours of entertainment for everyone, these two games teach management skills the hands-on way: spend money, make change, watch budgets, write checks, and pay bills... just like in the real world. Budget Town is a more advanced skills game that allows players to pay with checks, credit cards, or cash and collect interest on savings. This program features 100 reproducible worksheets with easy-to-follow directions! Activity book also includes color PDF on CD. Lesson scripts, assessments, and progress chart. A CHOKING HAZARD. Not for children under 5 yrs.

Set Includes:
- Ed 121W BOTH puzzles
- Ed 121C BOTH games
- Ed 121/W BOTH puzzles
- Ed 121C/W BOTH games
- Ed 121/A BOTH puzzles
- Ed 121C/A BOTH games

Money Station

Money Station blends hands-on activities, worksheets, and standards-based instruction to form a comprehensive money program. Includes a 126-page curriculum guide, coin and bill counters, realistic money, and plastic coin cubes. The guide establishes 8 skill sets organized by difficulty, each with a sequence of objectives... An assessment helps you zero in on skill deficits and assigns appropriate activities. The workbooks reflect real-world situations and use realistic illustrations, making them appropriate for all grades. Curriculum pages are reproducible plus a disc with PDFs is given to print worksheets and assessment forms from your computer. A CHOKING HAZARD. Not for children under 3 yrs.
REAL LIFE MATH - LEVEL 1
Boost Math Skills with Visual Cues & Realistic Problems

- Choosing an operation in everyday math situations
- Analyzing visual information
- Multi-step word problems
- Adding, subtracting, multiplying, & dividing money

These fun and effective books teach simple addition, subtraction, and multiplication through the use of real-life situations and visual cues.

Students will have a great time as they refer to the colorful price lists to figure costs at a restaurant, market, or department store. From pizza to pancakes and soups to soup, the easy-to-read price lists generate hundreds of simple rebus and word problems sure to improve any student’s math skills. A terrific, way to teach consumer math. Great for visual learners and those with limited reading ability.

MATH

MARKET MATH
Spice up Your Basic Math Program!

- Choosing an operation in everyday math situations
- Analyzing visual information
- Multi-step word problems
- Adding, subtracting, multiplying, & dividing money

This fun and effective book develops math reasoning and computation skills through the use of real-life shopping situations. From peanut butter to paper towels, nearly everything you might shop for in a grocery store can be found on the colorful fold-out price list that generates over 550 math word problems involving addition, subtraction, multiplication, and division! Students will have a great time as they refer to the price list to figure costs, total sales tickets, apply coupons, and more!

Help your students understand the practical reasons for learning math as they “shop” their way to math success with this motivating and solidly conceived book. 64 pages.

BUDGET
Students Learn the Benefits of Budgeting

GRADE LEVEL: 4

The budgeting game (11½"x11½")! Players add and subtract money amounts to manage personal finances with this "real-life" game. Each player receives a bonus amount. Players then add up their earnings and address the various expenses in the game, such as car payments, groceries, and entertainment. The object of the game is to get to the end of the road, which is the "Car Lot." The player with the most money remaining wins.

REAL-WORLD MATH: UNEXPECTED EVENTS GAME
Applying Math Concepts to Everyday Life

GRADE LEVEL: 8

Help students understand money and personal finances with this "real-life" game. Each player begins with a checking account balance of $100. Players take turns selecting an "unexpected event" card. According to the card, players either add or subtract an amount from their account (i.e. receiving a birthday gift or having to pay the vet). The first player to reach the end receives a bonus amount. Players then add up how much money they have in their accounts; the one with the most money wins, 2-4 players.

**ShoopinG SMART**
Includes an instructor’s guide featuring illustrated reproducible step-by-step sequences of grocery and department store shopping, plus related skills like planning for shopping, dressing right, and unpacking purchases at home.

The book also includes reproducible images of shopping cards, in two sizes, plus a dollar counter, home storage information, area location cards, and much more! Lesson plans provide objectives, data forms, and training suggestions. Includes 288 full-color laminated Shopping Cards that illustrate food, cleaning, personal care and clothing items, and function as a picture-based shopping list at the store. Each card fits easily into the Pocket Book which displays up to 50 cards. Includes one spiral-bound instructor’s guide (222 pages), 288 laminated Shopping Cards, and one Pocket Book.

**STTEPPING OUT CURRICULUM**
Features:

- 23 colorful, laminated wallet-sized reproducible worksheets
- 5 assessment forms
- 19 planned community outings

With this comprehensive program, students learn a balanced blend of skills—from shopping to banking to doing laundry—on planned, supervised outings. A spiral-bound, 285-page book includes lesson plans for 19 standard outings, plus dozens of related classroom activities. 23 wallet-sized cues help students perform community activities without requiring academic skills. Assessments and parent involvement forms help advance community-based IEP goals. Print extra cues and supplemental material from the Included Win/Mac CD.

**SOCIAL SKILLS ACTIVITIES**
Three ready-to-use lessons are sure to help students become aware of acceptable social behavior and develop proficiency in acquiring basic social skills both inside and outside of the classroom. Each lesson places a specific skill within the context of real-life situations. Hands-on activities allow the student to work through, think about, discuss, and practice.

**LIFE SKILLS ACTIVITIES**
Created for educators and parents of students with special needs, these books offer illustrated reproducibles to help students obtain independence and success. For Special Children (Grades K-5) features 180 lessons with reproducibles that focus on the basic ‘survival’ skills needed for both school and daily living. For Secondary Students (Grades 6-12) features 190 activities that focus on the specific skill within the context of real-life situations. Both books build skills in interpersonal, communication, academic, practical living, vocational, lifestyle choices, and problem-solving. 368-544 pages.

EDMARK FUNCTIONAL WORDS SERIES
A Multisensory Program to Teach 400 Practical Words

THOUGHTFUL LISTENING
Improves Comprehension, Memory, & Listening Skills

- Improves listening and writing skills with Understanding Instructions.
- Twenty-five interesting activities in each unit.
- Each book is guaranteed to improve the comprehension of even the most reluctant reader.
- Students of all ages are sure to enjoy reading the "real-life" craft projects and recipes, then completing follow-up writing activities that challenge them to read for details, locate information, follow directions, write conclusions, and more!

FOLLOWING DIRECTIONS
A Collection of Activities to Teach Position-in-Space Concepts, Directional, Visual, Perceptual, & More

- Around the House
- Classroom
- At Work
- Around the Town

- Teaching critical thinking to increase solving and writing skills.
- The future looks brighter for students who use this series to develop critical thinking skills!
- Each of the 7 books in the set target an important aspect of the everyday world.
- Key vocabulary is introduced in context, and exercises and activities provide hours of enjoyment as students follow directions to solve puzzles and place furniture pieces in vacuum rooms.
- Each activity involves using short oral directions given by the teacher.
- Students then use their retention skills to complete a writing assignment.
- Excellent for whole group, small group, or individual instruction.
- 40 pages each.

LISTEN, REMEMBER, & DO
Improve Listening Skills & Auditory Memory

- Functions as a word recognition method, involving repeated exposure to target words.
- Every lesson targets one or more functional vocabulary words and engages students in a variety of learning activities.
- The Functional Words Series is carefully sequenced, moderately paced, and repetitious.
- Target words are categorized into four functional areas covered in four individual kits within the series.
- Each kit of the program includes a Teacher’s Guide, 100 Word Recognition Lessons, 300 reproducible Vocabulary Activities, a 5-book set of Stories, a Board Game and game pieces, a pack of 100 Photo Cards, a pack of 100 Word Cards, and a CD all in a sturdy storage box.
- Ages 9 and up.

FOLLOWING DIRECTIONS
Strengthens Visual Perception as You Teach this Fundamental Skill

- Fun and unique illustrations are the basis for following directions in these imaginative books.
- In Book 1, students follow short picture directions that tell them how to fold and assemble parts of the illustration should be colored.
- In the Book 2, students must follow written directions to complete various pieces of art.
- 24 lessons each.
- Book 3 and 4 make following directions fun with a variety of formats sure to become an important life skill.
- Activities include puzzles, mazes, cut and paste, tracing, dot-to-dot, and lots more! 20 lessons each.

PICTURE DIRECTIONS
Powerful Lessons to Help Students Follow Directions

- Lay the foundation for independence and the ability to follow written directions with this step-by-step picture directions in this reproducible book.
- Forty-six lessons are divided into five categories — Cooking, Crafts, Life Skills, Print, and Drawing.
- Each lesson lists objectives, materials needed, directions to complete various pieces of art.
- Follow directions to complete various pieces of art.

UNDERSTANDING INSTRUCTIONS
Real-Life, Hands-On Activities to Boost Comprehension

- Supplement your reading and writing programs with Understanding Instructions.
- Twenty-five interesting activities in each unit.
- Each book is guaranteed to improve the comprehension of even the most reluctant reader.
- Students of all ages are sure to enjoy reading the "real-life" craft projects and recipes, then completing follow-up writing activities that challenge them to read for details, locate information, follow directions, write conclusions, and more! 32 pages each.

ESSENTIAL VOCABULARY
Words They Need to Know!

- Ideal for early readers and nonreaders who need to learn functional vocabulary words and engage in critical thinking exercises that emphasize word pronunciations and definitions.
- Interesting stories and real-life activities improve problem solving and writing skills.

LOOK ‘N COOK BEGINNER’S PROGRAM
Cookbook, Lesson Plans, & DVD Set

- Created by a special education teacher, this beginner program features 42 step-by-step recipes and realistic, full-color illustrations.
- Includes 110 laminated pages and a wipe-clean vinyl easel binder.
- Spiral-bound Lesson Plans feature 48 lessons to teach kitchen safety, cooking techniques, and nutrition.
- Each lesson lists objectives, materials needed, and procedures with teaching suggestions.
- Print recipe pages for each student with the included WinMac CD of printable PDFs.

LOOK ‘N COOK MICROWAVE PROGRAM
Life Skills Development Series

- Easy-to-Make, Illustrated Recipes

- Your nonreaders will become successful cooks with these microwave recipes that are illustrated step-by-step.
- Provides 68 easy-to-make recipes complete with cooking and microwave techniques.
- Recipes and data sheets are reproducible.

SURVIVAL SIGNS & SYMBOLS
Keep Students Safe & Encourage Self-Reliance

SURVIVAL SIGNS & SYMBOLS SOFTWARE
Hands-on Review of 35 Essential Signs

Knowing signs, symbols, and directions is essential for students who are trying to expand their knowledge outside the classroom into the “real world.” The reproducible activity book presents words and symbols that students will encounter in their everyday lives. Glossary pages feature 160 words and symbols that are organized by safety, mobility, restriction, and information. Word pages offer repeated usage of the words in different contexts. As students work their way through the exercises, they will gain knowledge that will allow them to become more confident and independent.

Help students reach mastery level with 94 full-color flash cards. The bold graphics and simple, easy-to-understand definitions make these ideal for students of all abilities. A must-have addition for any life skills class. Flash cards are printed on high-quality, glossy card stock. Simply cut and use with small groups or individual students.

SOCIAL SKILLS BOARD GAMES
Kid-Friendly, Rules-Oriented Games

Games are proven to be excellent tools for helping children learn about themselves. This Social Skills Series is kid-friendly and a great source for dealing with important developmental and social issues. 2-6 players.

Impulse Control Games
These games help children learn the importance of patience, read social cues, and understand the consequences of behavior. Learn to express themselves more directly, deal with name calling and teasing, and use humor to help children deal with conflicts. Build children’s sense of motor control, relaxation skills, how to express their feelings, how to problem-solve, and how to develop better listening skills.

Kids’ GUIDES TO DILEMMAS & STICKY SITUATIONS
Social Skills Activities

Whether it’s forgotten homework, the bike tires, friendships, or peer pressure, children are always faced with tricky moments and daily problems. Both 164-page books include more than 70 situations kids encounter on their own or issues that are hard to deal with. First, students read a dilemma, then before turning the page to see the solution, they have to give the dilemma some thought.

LOOKING GOOD CURRICULUM
Teach Essential Personal Hygiene Skills in Natural Sequence

To survive in the real world, you need the words. These books give your students practice with 20 vital words in each of ten topics: hygiene, grooming, health, home, school, friends, travel, restaurants, food, and time. The survival vocabulary is based on the same 200 words as Survival Fincoluca, but selects favorite teenagers in contemporary settings. Each story is accompanied by questions of increasing interest level 2+. Includes 48 pages.

Essential grooming skills like washing hands and brushing teeth are taught in a step-by-step, illustrated format to help nonreaders learn personal care routines. This curriculum includes a 235-page instructor’s guide focusing on 47 reproducible activities. Detailed lesson plans contain objectives, data questions, and key points. 72 laminated routine cards fit in the included pocket book to help users complete a sequence of grooming activities independently.

CONVERSATION SKILLS CURRICULUM
Developing Skills at Home, on the Job, & at School

Help low-level and nonreaders recognize essential, everyday signs. Four different activities help strengthen students’ knowledge of 75 common signs and symbols. Activities include matching pictures to written cues, or for limited readers, matching signs and symbols to spoken cues. Students then “flip” each sign to learn its meaning and common situations. A dynamic desk pad system, comprehension and keeps interest high. Bold graphics and simple easy-to-understand definitions are sure to appeal to students of all ability levels. Daily work can be saved, showing progress over time. Also print activities and reading-based word banks for additional practice.

Written by a Speech & Language Therapist, Conversation Skills covers basic and essential communication skills and helps young people enjoy successful job experiences and more fulfilling and independent social lives. Features lesson plan books that teach students with developmental disabilities to initiate and maintain conversations on the job, at home, and with friends in school. Book 1 includes 50 self-paced lessons. Skills are introduced in the classroom through role-playing and guided practice sessions, and implemented independently by the student. Book 2 stretches the range of effective conversations by teaching students how to remember names, develop friendships, and make small talk.

KINDNESS & RESPECT POSTERS
8 Positive Character Traits Posters

Decorate your classroom with these adorable animal photographs that offer students a unique view of eight positive character traits. Each poster features friendly and supportive relationships and features an encouraging quote from a well-known author, educator, or community leader. Includes eight 11” x 17” posters. Words include: acceptance, compassion, cooperation, encouragement, friendship, kindness, politeness, and respect.

CHARACTER BUILDERS
Build Strong Character & Word Recognition!

Our delightful little readers encourage children to share with others and to do the right thing while strengthening reading skills. Repetitive, easy-to-read text along with colorful illustrations make these just right for beginning readers. Each set includes six, 16-page books and a CD that invites children to read and sing along. Vivid illustrations, lovable characters, and enjoyable stories make these 6/16-book sets instant favorites!

38 ACTIVITIES TO IMPROVE SELF-ESTEEM
Writing About Me

A strong sense of character and positive self-esteem are key ingredients to a student’s success in school and in life. So give your students a chance to develop and reinforce 38 important attributes while simultaneously improving their writing skills. Each student features a different attribute such as “honesty” or “responsibility” to stimulate group discussion. Relevant writing activities help students look “within” and focus on their individual attributes.

TO ORDER, CALL 1-800-826-4740 | PREVIEW SAMPLES & ORDER ONLINE AT WWW.REMEDIA.COM
These high-interest historical fiction stories will grab your reluctant readers’ attention while meeting the Common Core genre requirements. Each fictional story also includes a nonfiction summary and concludes with a series of activities designed to further explore the subject. Each book contains stunning full-color interiors while maintaining an easy-to-read open layout. Approximately 1000 words each.

20 Skills Covered Include:
- Analyze
- Author’s Purpose
- Author’s Viewpoint
- Cause & Effect
- Compare/Contrast
- Describe
- Draw A Conclusion
- Evaluate
- Inference
- Integrate
- Locate Information
- Main Idea
- Make Generations
- Make/Quotient an Opinion
- Problem/Solution
- Research
- Sequence
- Summarize
- Use Context to Derive Meaning

Each 64-page book offers a different nonfiction story for each day of the month, which was chosen because of its particular significance on that date. These high-interest, low-vocabulary stories are followed by hands-on activities designed to improve overall reading comprehension skills while focusing on specific skills. Best of all, you will never run out of usable activities again!

Give your students a close-up look at our government to action. You’ll take them behind the scenes to assist them with 20 different lessons. Each lesson includes crossword puzzles, definitions, extended activities, and more. One resource CD includes the same activities in whiteboard-ready PDF format.
EXPAND students’ minds with stories of the world’s people—from the earliest times to the present. The manageable, single-concept approach and multi-leveled support help students successfully meet curriculum requirements. World History provides engaging sections like History in Your Life, History Facts, Great Names in History, and Reading Strategies to help students build a solid foundation in history. Complete details and more titles are available online.

**Topics Include:**
- Ancient Civilizations: 5000 B.C.–200 B.C.
- Greece & Rome: 1500 B.C.—A.D. 400
- The Middle Ages: A.D. 400–1400
- The Renaissance: 1400–1600
- The Birth of Democracy: 1200–1900
- The Age of Imperialism: 1500–1900
- And More, Including: 1945–Present

Expand students’ minds with stories of the world’s people—from the earliest times to the present. TEACHER RESOURCES

REUSABLE DRY-ERASE POCKETS
Indispensable Resource for Your Classroom!

TIME TIMER®
Tangible Time Management

Perfect for: Using
- Standardized Tests
- Speed Tests
- Computer Time
- Study Periods “Time Outs”

“How much longer?” In the classroom, you must hear this question all the time. Help students understand the sense of elapsed time with our classroom-tested teaching aid. No other tool communicates the concept of elapsed time more effectively than the Time Timer®. Watching a red dial get smaller with each minute gives students a graphic depiction of the time remaining. Large dial numbers, high-contrast color, and ultra-quiet gear movement make the Timer perfect for students with ADD, ADHD, autism, or special needs. Timers feature the option to use a visual depiction only, or add sound to signal the end of a time segment. The 3rd and 12th Time Timers are both designed to be free standing or wall mounted. Each requires 1 “AA” battery (not included).

Software:
This software provides innovative new ways to visualize the passage of time by allowing the user to work with hours, minutes, and seconds in “real time.” Application window can scale on your screen as well as float on top of other applications. Select from 5 different languages. Wireless compatible.

LISTENING FIRST™ STEREO HEADSET
Rugged iCompatible Headset
Help your beginning readers succeed with their real- almonds with our Listening First™ cardboard headset. Built for young students and loaded with added safety features, classroom-rugged iCompatible headset is ideal for language activities on computers and mobile-based learning smartphones and tablets. This headset is a reliable choice for testing to meet English Language Arts (ELA) requirements within the Common Core State Standards. More details available online.

Features:
• Single 3.5mm To Go plug connects with smartphones tablets, computers, Chromebooks, computer or a jackbox. iO, Windows, Android compatible
• Ambient noise-reducing earcups lower outside noise as volume does not need to be as high for hearing safety
• Two-year warranty for school use

CAL 28007BK .............................................. $24.99

SWITCHABLE STEREO/MONO HEADPHONE
Optimal Sound Quality at an Affordable Price!
This high-performance headphone is ideal for one-on-one instruction. Switch between monaural and stereo functions to provide maximum utility as students move from the monaural content of language development lessons to the stereo requirements of computer workstations and online learning. Ambient noise-reducing earcups keep external distractions to a minimum. Features a 10-ft. coiled cord.

Features:
• Mono/stereo switch for language or computer applications
• Dual volume controls on each earcup
• Replaceable padded ear cushions
• Adjustable, cushioned headband
• ¼” snap-on adapter w/dual plug sizes fits any media player

CAL 206ASV 1 HEADSET .................................. $10.99
CAL 206AS12 12 HEADSETS WCARRYING CASE .......... $219.99

USB HEADSET
Learning on the Computer Has Never Been This Quiet!
This state-of-the-art, adjustable headset is the first one designed specifically for school use with USB connectivity. Its uni-directional mic and noise-reducing earcups are ideal for high-speed internet use, tutorials, language learning, and situations requiring isolated focused feedback. Windows Mac compatible:
• Flexible boom microphone for language applications
• Reinforced strain relief connector won’t pull out
• Around-ear ambient noise-reducing earcups deliver maximum protection against external sounds to help keep students on task

**INTEREST LEVEL: 4-5**

This dynamic feature-packed, full-color illustrations that spark student interest and offer clues to the story’s content. Under each illustration is a short, nonfiction reading passage. Skill-based questions featured on the back of each card target specific comprehension skills like facts, sequence, cause and effect, comparison, vocabulary, locating the answer, conclusion, and inference. Ideal for both large and small groups or as a center activity, these versatile sets store easily in a durable storage box. Cards measure 8½”x11” - 45 cards.

**INTEREST LEVEL: 4-6**

Our collection of 12 high-interest, low readability stories will captivate student interest and help build comprehension skills. Thin Than, the thin man, is a non-threatening stick figure who takes students on adventures like traveling to Japan, playing different sports, and hanging off a school. The included Resource CD features over 100 activity pages that cover skills like context clues, alphabetizing, summarization, sentence writing and much more. Great for ESL!

**INTEREST LEVEL: 5-8**

- 48 durable dominoes can be played at three levels of difficulty depending on the ability level of the students. Dominoes feature 2 to 5-digit numbers covering ones, tens, hundreds, and thousands places. Instruction booklet included: 2-4 players.

**THE ADVENTURES OF THIN THAN**

This Thin Man Will Motivate Beginning & Struggling Readers

**BASE LEVEL: 2+**
