

Name _____

READING TEMPERATURES

In the spring, some days are warm and some are cold. A thermometer shows the temperature. The red mark goes up in a thermometer when it is warm. It goes down when it is cold. The numbers with little circles by them (60°) are called degrees. That is how we say the temperature.

Answer the questions about the temperature.

1. What was the temperature on Monday? _____
2. Which was the coldest day? _____
3. What was the temperature on Tuesday? _____
4. Which two days had the same temperature?

5. On which day was it 40 degrees? _____
6. What was the temperature on the hottest day? _____
